Una forma de funcionar | Our own way | Gauzak egiteko dugun modua

About the Summit

ATG SynBio Navarra Summit 2026 will position Navarra as a global-facing meeting point for engineering biology infrastructure, biomanufacturing and bioeconomy deployment.

The summit brings together **leading stakeholders across synthetic biology**, biofoundries, industrial biotechnology, venture creation and policy — **connecting** infrastructure, industrial scale-up, startups, capital and **international ecosystem building**.

Focus areas: **biofoundry infrastructure · health · agrifood · industrial fermentation · circular bioeconomy**

**Global-facing
biomanufacturing hub**

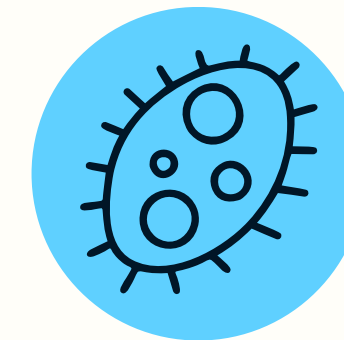

**Leading engineering
biology stakeholders**

**Biofoundries as
strategic infrastructure**

**Startups, industry,
capital & policy**

**Bioeconomy across
health, agrifood &
circularity**

Why Navarra

Baluarte Conference Center, Pamplona

Spain's only AgriFoodTech regulatory sandbox, highly relevant for biotech-enabled food innovation

Public-private alignment around Navarra's Synthetic Biology Strategy and the Navarra Biofoundry.

Fiscal tools for R&D-intensive startups and innovation-driven companies

Strong industrial demand across **health, agrifood, energy** and manufacturing

Navarra is not only hosting the summit — it is building the conditions to become a **European launchpad for biomanufacturing and bioeconomy deployment.**

Confirmed Speakers

Paul Freemont
Imperial College
London / Global
Biofoundries Alliance

Mar González
Repsol

Damien Douchi
Paris Biofoundry

Adrian Woolfson
Genyro
The Future of Species

Conchi Novillo
Bayer

Javier García
Columbus Ventures

Ricardo García
Meiogenix

Daniel de la Torre
Constructive Bio

Leire Escudero-Ibarz
AstraZeneca

Karl Schmieder
What's Your Bio-
Strategy / Grow
Everything

Elena Erroba
3PBIOVIAN

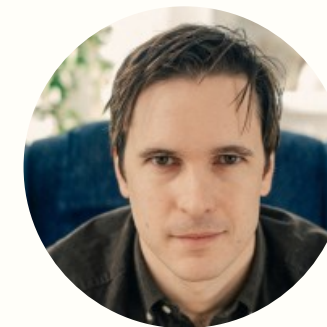

Carlos Campillos
The Good Food Institute

Ashley Noriega
Centre for Future
Generations

Kathryn Spiller
Applied Microbiology
International

Lachlan Munro
BRIGHT Biofoundry,
DTU

Haotian Guo
Ailurus Biotechnology

Programme Overview

28 October

VIP Pre-Summit Experience

Navarra Biofoundry visit · Startup pitch showcase · Investor & corporate networking · Institutional reception

29 October

Strategic Infrastructure & Ecosystem Building

Strategic biomanufacturing · Biofoundry best-practice exchange · Venture creation · Global ecosystem building · Partner exhibition

30 October

Industrial Deployment & Bioeconomy

Agrifood & fermentation · Circular bioeconomy · Industrial scale-up · Technology sovereignty & resilience · Europe's next priorities

**Full programme and detailed schedule available at the end*

Registration Fees

Registration gives access to all sessions, partner exhibition, and networking activities across the three days. **250 expected participants** all **50% international attendance**.

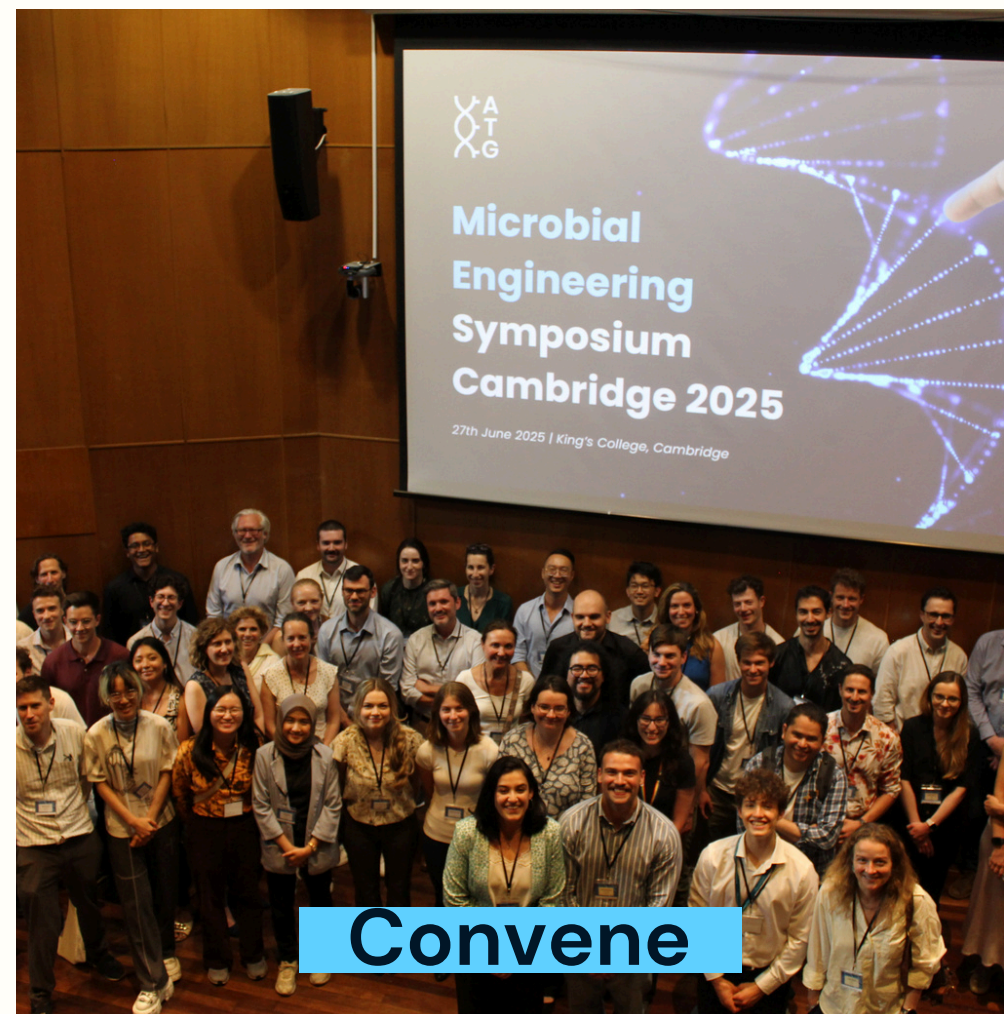

CATEGORY	Early Bird	Regular
	until 27 September 2026	from 28 September 2026
	PRICE	PRICE
Student	75€	100€
Academic	150€	200€
Startup / Ecosystem	200€	300€
Investor	250€	300€
Industry	350€	450€
Navarra Delegates	Invitation only	

About ATG SynBio Spain

We **connect science, industry, capital and policy** to catalyse **bioentrepreneurship** and strengthen Spain's position in the **global bioeconomy**.

Research, startups, industry,
investors & institutions

Thought leadership, international
congresses & Learning Expeditions

Open innovation, tech transfer & lab-
to-market execution

Let's build together what comes next

Partner with us to advance SynBio
and the **global bioeconomy**

ATG SynBio

Navarra Summit 2026

28–30 OCTOBER 2026
Baluarte Conference Center · Pamplona

DAY 0

Wednesday 28 Oct · PM

16:00
Reception

16:30
Technical Visit to IRIS Biofoundry

17:30
Opening

18:00
CEIN Startup Pitch Showcase – Block 1

18:30
Coffee, Networking & Partner Exhibition

19:00
CEIN Startup Pitch Showcase – Block 2

19:30
Founder-Investor Networking

Invitation-only Pre-Summit. Technical visit, startup showcase and networking for invited participants.

DAY 1

Thursday 29 Oct · PM

13:15
Biofoundries as Strategic Assets: Best Practices, Scaling & Global Collaboration

14:30
Lunch, Networking & Partner Exhibition

15:00
Building Innovation Ecosystems that Scale

16:00
From Research to Companies: Venture Creation at Scale

16:30
Coffee, Networking & Partner Exhibition

16:40
AMI Journal · Industry Perspective

17:00
Building Global Engineering Biology Communities: Lessons from the World's Leading Innovation Hubs

18:00
Engineering Biology Without Borders: Connecting Industry, Capital & Ecosystems

DAY 1

Thursday 29 Oct · AM

09:00
Registration

09:30
Official Opening · Navarra Stakeholders + ATG SynBio Spain

10:00
Keynote: Programmable Biology as Strategic Production Infrastructure

11:00
Biomanufacturing as Strategic Infrastructure: From Therapeutics to Industrial Resilience

11:30
Coffee, Networking & Partner Exhibition

11:40
Constructive bio – industry perspective

11:50
Paris Biofoundry Experience

12:00
Navarra Biofoundry Experience

DAY 2

Friday 30 Oct · AM

09:45
SynBio for agrifood: Innovation, Regulation & European Competitiveness

11:00
From Lab to Factory: Scaling Biology for Food, Agriculture & Industry

11:30
Coffee, Networking & Partner Exhibition

11:40
Industry Perspective – Open Sponsor

12:00
Building the Circular Bioeconomy: From Biological Resources to Industrial Deployment

13:00
Biomanufacturing for Technology Sovereignty: Energy, Materials & Resilient Production

14:00
Closing Conversation: What Must Europe Build Next?

14:15
Closing Remarks

In collaboration with:
